COMPRESSION

ACTIVE APPAREL

COMPRESSION Clothing made of very elastic material squeezes muscles causing better oxygenation and blood circulation, thereby reducing exercise pain.

WINDPROOF Windproof material protects against cold, providing comfort during training.

IQ DRY TECH Technology used in the clothes of the IQ brand. Owing to it, the material breathes and perfectly wicks away moisture. Provides optimum thermal conditions during training and a feeling of freshness.

AIRWAY Used synthetic materials ensure free air flow, which provides the user with a feeling of comfort while practicing various physical activities.

QUICKDRY Synthetic materials are characterised by a short drying time, which ensures comfort during and after exercise.

SEAMLESS Seamless clothing provides a very good moisture transport, while ensuring dryness and maintaining thermal comfort regardless of the level of activity.

VISIBLE AFTER DARK Reflective elements increase safety during active leisure.

REFLECTIVE ELEMENTS Reflective elements increase safety during active leisure.

BUILT IN-BRA The built-in bra increases comfort during physical exertion.

MOLDED CUPS Moulded cups sewn permanently into women's wear ensure the comfort of use. They do not move and ensure good moisture discharging.

REMOVABLE MOLDED CUPS Removable moulded cups in the women's wear improve comfort and allow for adjusting it to the different needs of the female users.

ADJUSTABLE STRAPS

Adjustable bra straps allow for individual matching, ensuring perfect support of the bust.

THUMB HOLES Extended sleeves with thumb holes protect hands against cold.

AUDIO POCKET Comfortable pocket for an mp3 player, phone, documents, and other small items.

BACK POCKET Applied in the clothing is used for hiding the necessary items.

INNER POCKET Leggings built-in waist pocket, useful and comfortable during training.

AUDIO POCKET Comfortable pocket for an mp3 player, phone, documents, and other small items.

BUILT-IN BRIEFS Built-in linen pants increase the comfort of use during training. They provide excellent moisture discharge, dry quickly, do not cause allergies, and are resistance to bacteria and fungi.

BUILT-IN SHORTS Comfortable and skin-tight leggings in the shorts increase the comfort of use. They eliminate the formation of abrasions during training, dry quickly, and discharge moisture.

MICROFLEECE LINED Microfleece lining increases the thermal comfort of the clothing.

APPAREL ACCESSORIES

AIRWAY Used synthetic materials ensure free air flow, which provides the user with a feeling of comfort while practicing various physical activities.

QUICKDRY Synthetic materials are characterised by a short drying time, which ensures comfort during and after exercise.

WINDPROOF The material that ensures windproofness.

MICROFLEECE LINED Microfleece lining increases the thermal comfort of the clothing.

VISIBLE AFTER DARK Reflective elements increase safety during active leisure.

REFLECTIVE ELEMENTS Reflective elements increase safety during active leisure.

SEAMLESS No seams or their minimization in the clothing provides comfort and convenience of use and eliminates the possibility of abrasions during physical activity.

TOUCHSCREEN-FRIENDLY Gloves allow you to operate touch screens.

COMPRESSION Socks made of very elastic material squeezes muscles causing better oxygenation and blood circulation, thereby reducing exercise pain.

DRYTEX COMFORT Drytex Comfort is a high quality, soft texture technical fabric. This technology ensures high breathable features so Drytex Comfort is a special fabric that removes moisture and keeps your body fresh.

SHOES

WATERPROOF Wellies protect 100% against water.

SYNTHETIC MATERIAL Shoes made of a synthetic material (PVC, PU, TPU, rubber) are easy to maintain, offer a large range of colours and designs.

KNITTING Shoes made of knitted textile perfectly fitting to your feet. They are lightweight and breathable.

TEXTILE This fabric is based on a network of natural and artificial fibers - footwear utilising it proves to be lighter and more breathable.

MESH Synthetic mesh provides excellent breathability of the footwear. Owing to this, the footwear is lighter and quickly discharges moisture to the outside of the upper.

RB RUBBER Sole made of RB rubber is slip resistant, flexible, and waterproof. It perfectly insulates the foot from the ground, which significantly increases thermal comfort on cold days.

TPR RUBBER Thermoplastic rubber is characterised by high strength and resistance to low temperatures. The sole made of this material is durable and wear resistant.

EVA PHYLON Thanks to innovative manufacturing technology, EVA Phylon foam is extremely light, flexible and has excellent cushioning properties.

EVA FOAM EVA foam adapts perfectly to the foot. It is lightweight and flexible, thereby providing excellent cushioning while maintaining a small weight.

HI-POLY Breathable, lightweight and antibacterial foam. Perfect shock-resistance and comfort.

REMOVABLE INSOLE The possibility of removing the insole.

REFLECTIVE ELEMENTS Reflective elements increase safety during active leisure.

SHOES ACCESSORIES

INTELLIGENT INSOLE Memory foam applied in the insole of the sports shoes adapts to the foot shape, ensuring comfort and support.

EVA FOAM EVA foam adapts perfectly to the foot. It is lightweight and flexible, thereby providing excellent cushioning while maintaining a small weight.

ELASTIC Thanks to the combination of polyester and rubber fibers, laces are flexible, stretchable and adapt to the foot without causing pressure or discomfort.

SPORT ACCESSORIES

THERMOS / WATER BOOTLE ETC.

ANTI-LEAK Locking system that prevents fluid leakage.

ATOMISER A device for emitting water as a fine spray.

BPA FREE Product doesn't contain Bisphenol-A.

FITNESS ACCESSORIES

ADJUSTABLE LENGTH The possibility of length adjustment.

SHOCK-ABSORBING PADS Shock-absorbing pads of the cycling gloves applied at the points of the largest loads and pressure, are intended to mitigate the shocks while riding, thereby protecting the wrists against injuries.

PULL OFF SYSTEM PULL OFF SYSTEM for easy gloves removal.

STABILIZING STRAPS The elastic stabilizing straps give the perfect fit and wrist support during training.

LEATHER Leather gloves offer high durability, greater air circulation and better grip.

WATERPROOF The inside of the material is covered with a thin laminate that prevents water penetration.

COMBAT SPORTS ACCESSORIES

SHOCK-ABSORBING INJECTED FOAM Injected foam padding for sock absorption
